

# Kerstep Consultants

Philip Kerstein

Helping clients work with technology.

- **Fast reactive support**
- **Disaster recovery**
- **Wifi issues**
- **Microsoft / Apple Specialist**
- **Automated online Backup**

Philip has over 35 years experience as an I.T. consultant.

Having worked for many major banks in various project and support roles, all over the world, he now assists many smaller companies with his experience.

His latest projects include migrating in-house servers to hosted platforms, designing and implementing the very latest mesh wifi systems, and working with some interior design houses to design the latest "in-house-technology" and ensure all is stable and secure.

*"Thank you for all of the help on restoring our data on all our software packages and getting our systems up and running again, with a minimum of disruption and stress. You think it will never happen but computers break down and your data is so important especially Accounts and Payroll packages, where deadlines are involved. The backups you set up and manage for us have been a godsend."*

**Darren Quelch, Managing Director**  
**Power Cleaning Group Ltd**
