Kris Kumar is highly respected for the calibre of his celebrated cuisine, plus his team's professionalism and caring disposition. Most dietary requirements can be accommodated so clients and their guests feel special.

Every celebration has its own dedicated Event Manager who carefully co-ordinates the entire process from initial conversation until fruition of the event. Working closely with the client, the manager keeps them regularly updated whilst also managing the entire HJK Events team. Expectation and budget are absolutely respected.

"Everyone appreciated not only having hot and tasty food but plenty of it as well!"
